Academy

Since its inception in 2015, Catalyst4 Professional Sports Management Academy has gone from strength to strength. Our team of consultants across the globe have worked tirelessly to build a solid reputation and establish relationships of trust with football clubs from grassroots level through to the Premier League as well as internationally. The majority of our players are from the North of England, however due to our ever expanding network we now attract players from all regions in the UK, Europe and the rest of the world.

Catalyst4 PSM Academy provides a platform for the continued career development of young players. Via our showcase games, training sessions and our annual elite training camp, players are given the chance to display their talents to professional clubs, whether it be for the first time or for those who have been released from academies and are looking for a new opportunity.

We have seen a fantastic success rate as a result of our Academy training camps and showcase games with 20 of our players signing scholarships or professional terms.

Jack Devlin, 19 is now in his second professional year with Stoke City FC, **Harrison Devine** and **Thomas Scothern** are now first year scholars with Sunderland AFC, **Daniel Dodds**, 16 signed a scholarship with Middlesbrough FC, **Ursene Mouanda** recently signed with Kilmarnock FC, **George Lindo** signed with Rotherham United, **Keaton Marrs** with Mansfield Town and **Belchior Papa**, 16 now plays with Carlisle United, to name but a few! We are also delighted that five of our former Academy players are now forging professional careers overseas in Norway, Spain and Sweden.

We are very excited and proud to be working as strategic partners with the new South Shields FC and Sheffield FC academies as well as Sunderland College and Maltby Academy Sixth Form College to provide further football and educational pathways. A number of our Catalyst4 PSM players are already enrolled on these scholarships.

We have high hopes for our new crop of Academy players in 2018.
