Special Edition

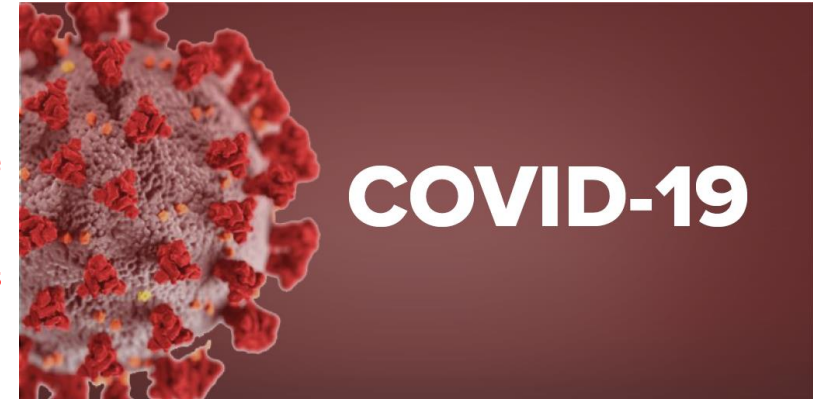

M2K Services Partnership

In light of recent government guidelines and the easing of lockdown measures this week, all non-essential shops will be able to reopen from 15th June with industries across the board including the hospitality sector set to follow suit from the 4th July.

This does not mean that there is still not a lot of work to be done in eradicating the COVID-19 virus and the workplaces to which we return will be markedly different. Social distancing will still need to be maintained, face masks worn when required, possible phased returns and above all the need to keep our offices and businesses as bacteria free as possible meaning regular deep cleans and washing our hands frequently.

As a result, there is an increasing demand for sanitiser stations and chemical cleaning products. With this in mind we are working with our partners at M2k Services to provide quality and affordable British made solutions. You can access the company website by clicking their logo below.

M2k Services have been asked by various high street retailers and businesses to procure PPE to enable stores to trade safely when allowed to do so.

In sourcing various products, M2k found the market to be challenging with items allegedly available being out of stock and prices fluctuating daily.

M2k therefore approached a reliable vendor and past business partner who has operated in the cleaning chemicals and associated products industry for thirty years, supplying large hotel chains and other corporate businesses. Obviously the benefits of this experience are numerous with the pertinent points being a guaranteed continuity of supply and very competitive prices.

M2k are well versed in the manufacture of display stands with twenty years' experience dealing with some of Britain's best known brands, such as Farmfoods, River Island, Selfridges and Gap. The sanitiser stations are designed and manufactured in Britain by M2k and are available from stock - they offer a long term, simple to use and importantly easy to replenish solution.

In this newsletter you will be able to view the products available. Should you wish to make any further queries please quote our special offer ref: NEI SAX. Our partners at M2k Services are happy to negotiate bulk quantity discounts.
